

TEEMU TUPOLA

Junior Software Engineer

ABOUT ME

Motivated IT student specializing in web and backend development with hands-on experience in full-stack projects and AI-driven applications. Known for fast learning, practical problem-solving, and a proactive approach to development and testing. Seeking opportunities to apply technical and creative skills in real-world projects.

PROJECTS

Agent-based automation - Thesis for Triplan Oy

I did my Bachelor's thesis for Triplan Oy on agent-based automation. The work includes comparing automation platforms and developing a Proof-of-Concept prototype using the n8n automation platform.

OAI-PMH Provider Prototype for Triplan Oy

Reference Contact - Joni Turunen, +358 40 451 5514

Worked as part of a student team developing a OAI-PMH provider for Triplan Oy, integrating their REST API with Finna's harvesting system using Java Spring Boot.

AI-Based Invoice Assistant - [Github](#) - [Demo](#)

Reference Contact - Mazhar Mohsin, +358 40 836 8023

As part of the BIP Smart Everything course organized in Spain, we developed an AI-based program capable of answering questions and generating JSON/PDF summaries from invoices.

EXPERIENCE

Junior software & AI developer

Aineo Agency - Full time

09/2026- Present

Agentic applications and systems for industrial, supply chain and project-based operations.

Software Engineer Trainee and Thesis worker

Reference Contact - CTO Joni Turunen, +358 40 451 5514

Triplan Oy - Full time

10/2025 - 9/2026

Built a Java Spring Boot-based OAI-PMH prototype to expose metadata via REST APIs. In my thesis, developed an LLM-powered automation PoC with n8n to classify, translate, and summarize support tickets using Azure OpenAI and Cosmos DB. During my internship I developed and deployed a production implementation of my thesis PoC.

Cashier

Sillin Talli Ky - (part-time)

11/2019-08/2025

Reference Contact — Eelis Norja, 0440828073

Responsibilities included cashier tasks, updating cash register and inventory systems, balancing the cash register, receiving deliveries, and stocking products.

CONTACT

Phone: +358409306667
